**Athletes Warehouse**, 220 Tompkins Ave., (914) 741-1802 | [www.athleteswarehouse.com](http://www.athleteswarehouse.com) | Although our physical building will remain closed, Team AW is forging ahead and doing everything we possibly can to ensure our athletes can maintain some consistency and normalcy as so much in their lives has already been egregiously disrupted. Our first priority is to ensure that anyone who wants to continue to train at home has the resources to do so. We will be posting free safe & accessible general fitness workouts as often as possible through our social media. In addition to this, for athletes who are looking for more personalized programming, we will also be offering both weekly and monthly remote ("at home") training programs through our app. Each program is completely individualized and monitored by one of our coaches. You do not have to be a current AW client to receive a remote training program -- please forward to *anyone of any age* who you think may be interested -- we can do consultations over the phone or facetime!

In addition to this, we are offering free equipment rentals for anyone registered for a monthly program. We will continue to post on social media regarding equipment rental pick-up times.

Obviously, more than anything, we want our athletes and community to be smart, safe, and to stay healthy. In addition to providing the service of training, we have always had a strong sense of culture & community at Athletes Warehouse which we will continue to maintain. We want to make sure that every athlete knows they should not hesitate for one moment to reach out to any of our coaching staff if they need someone to talk to, vent to, or have a question about how to do any exercise. We love every single one of our athletes and hope to be a source of comfort and familiarity in this confusing time. If anyone is not sure how to get in touch with a coach, they can email us at [team@athleteswarehouse.com](mailto:team@athleteswarehouse.com) and we will forward it along through the proper channels.
